

Which kind of policy would you support to increase economic growth while expanding workers' rights?

Would you support legislation guaranteeing equal pay for equal work regardless of gender, race, sexual orientation, and other such factors?

Do you support permanently ending the death penalty in Delaware, and repealing the current requirement for mandatory minimum sentencing?

Would you support legislation changing how we fund Delaware public schools? If so, how would you like to see such funding reformed, and why?

How can Delaware bring down the costs of higher education?

Do you plan to help transition Delaware to a more renewable energy grid? If so, how? And specifically which role(s) should the State play in such a transition?

What can we do to improve our criminal justice system?

What can we do to help end institutionalized racism in Delaware?

How would you improve transparency for elections and campaign finance in Delaware?

Would you support legislation for a State-run healthcare system available to all Delawareans, regardless of their income, such as a Medicaid Buy-In (MBI) program or other type of public option? Please elaborate.

What kind of legislation would you like to see regarding reforming Delaware's corporate regulations, and closing tax and incorporation loopholes?

What are your thoughts on the best approach to balancing the State budget? Do you favor new income streams for the State, cuts to existing programs and outflows, or a mix? Also, in your opinion, are cuts to certain programs and outflows nonnegotiable? Which kind of tax reform, if any, do you support to help balance the budget and create new income for the State? Please elaborate.

Finally, if elected to office, what are your top priorities as a legislator? Please be specific.
